
Matlab R2012b Torrent

I installed MATLAB 2012b for Mac (maci64). I just found out that some of the programs I have to run require 32-bit mode (not 64-bit mode). Can anyone lead me on the path to find the program that requires it and when I installed it I can't find it? Many thanks! UPDATE: I just found this program: Microsoft Office 2010 .zip (which seems to work in 64-bit versions). I am using a 32 bit Mac version. Can anyone explain why I have to use the 32 bit version of Mac on a 64 bit program? (I'm running Excel 2010 which seems to require a 64 bit version) UPDATE:
