You can pick any of the 6 characters (whose stories are also linked through the Archimedes Engine) and go about undressing them. This guide will help you get started, from researching and picking your character's strengths to building out your character's outfit along with various weapons, armor and extra sets. Playing Undie.Undie can be confusing to new players, so if you choose to play Undie, it's best to look up the tips below beforehand. Researching your character. First you must choose which character you'd like to play, and do your research. The easiest way to do this is to spend a good amount of time reading their character bios, and preparing for the level you'll play at. Researching your character is an essential step, as each character has a number of different things to choose from, and each will also have a different play style. For instance, a fast and nimble character will not be good with new or heavier armor, and vice versa. Look at this list below, and select according to what suits your play style. All characters have similar weaknesses so this is the key to getting great loot. Weapons. The default weapons that you get from the start are quite useful and can help you do many things, but you may want to upgrade your weapons before you decide on what armor and clothing you'd like to wear. You can find a number of different junk weapons, such as pistols, shotguns, and knives. Any weapon can be upgraded to your character's level, and each skill is a different level. You can upgrade weapons every level, or you can purchase new weapons of a higher level once you've killed enough enemies to enter a specific level of the game. Each weapon has a unique perk you can purchase, which can be even more useful in different situations. They can also be combined together with skills, and can cause various new abilities. I asked him if I could share it, and he graciously agreed. While the original statue on the cover is not the one that appears in the book (the crushed head is not a zombie and the crushed head is not the "chosen one"); it does remind me of the infamous Zombie (although this one has one arm and two legs as opposed to the ancient version's two arms and four legs). Again, it is such a beautiful design, with the original colors perfectly preserved. If you have not yet ordered your book, you can still do so by clicking on the image below. Dr. Ravven you are not being sarcastic but honestly your appreciation for my art is very much appreciated and not just for this instance but for all the artists that create the art in this book and ultimately for the people who read the stories that inspired me to create it. Of course I would be honored to have it on display anywhere if the right venue was offered to me by the library which will be a year before the book will be ready for distribution. I hope it works the way you want it to in your mind Mr.Keller because sometimes there are a lot of variables to the logistics but to me it would be an honor. I really appreciate your kind comments, however, it was not meant as criticism of the art. The people that created the art wanted to see it in the book, and while they all draw each other, their time is limited. I can respect that. I enjoy all the art that appear in The Book, and of course, would like it on display in museums and venues. I do have three of my statues on display in museums, and yes, "Zomnicron" was the first. I think "Zomnicron" can fit into the "My Favorite Zombie" category, even though no zombie lives
